

## Equality Objective One:

### POLICY AND PUBLIC AFFAIRS

London Councils Directorate: PAPA - POLICY	
<b>Objective</b>	<b>Ensure that boroughs show local leadership in tackling community disadvantage by evaluating and improving policy interventions that will allow London's diverse communities to succeed</b>
<b>How we will achieve Objective</b>	<ol style="list-style-type: none"> <li>1) Develop a series of policy interventions that will tackle community disadvantage across the following themes: <ul style="list-style-type: none"> <li>• Welfare reform</li> <li>• Austerity and London's financial settlement</li> <li>• Homelessness and housing delivery to meet the needs of London</li> <li>• Enhancing individual opportunity in employment and skills</li> <li>• A framework of support to children and parents during the early years</li> <li>• London's local policing, public safety, rehabilitation and violence against women</li> </ul> </li> <li>2) When possible, conduct deeper equality analyses to highlight good and bad practice in policy and service delivery to inform local leaders and influence decision making. An equalities analysis of the Work Programme will be released in early summer 2015 as part of this strand.</li> <li>3) Support the dissemination of intelligence on how boroughs map and understand their diverse communities and how they use that knowledge to plan services and assess the cumulative impact of policy interventions. A current programme of work on the mobility of vulnerable groups in London is exploring the coordination of data collection between boroughs to improve collective intelligence regarding churn and internal migration.</li> <li>4) A snapshot of good practice and the application of the Social Value Act across London local government to improve opportunities made available to local residents, businesses and organisations.</li> </ol>
<b>How we will measure Objective</b>	Evidence of increase in production and publication of equality analysis to inform decision-making such as the upcoming analysis of the equality impact of the Work Programme.

	<p>Oversight of the impact of policy interventions in tackling local disadvantage.</p> <p>Evidence of borough impact when gathering intelligence to effectively map and understand diverse communities across the region, currently being explored in the programme of work on mobility of vulnerable groups across London.</p>
